Summary:

Current law requires, by July 1, 2018, a public water system to compile an inventory of known lead user service lines in use in its distribution system and identify areas that may have lead user service lines in use in its distribution system. This bill would apply the above-described provisions relating to lead user service lines to a community water system, instead of a public water system, and would require, by July 1, 2020, the community water system to provide a timeline for replacement of known lead user service lines in use in its distribution system to the State Water Resources Control Board.

Summary:

Would require an urban retail water supplier to calculate an urban water use objective no later than November 1, 2023, and by November 1 every year thereafter, and its actual urban water use by those same dates. The bill would require an urban retail water supplier to submit a report to the department

for these purposes by those dates. The bill would authorize the State Water Resources Control Board to issue information orders, written notices, and conservation orders to an urban retail water supplier that does not meet its urban water use objective, as specified. The bill would authorize the board to waive these requirements for a period of up to 5 years, as specified.

Summary:

The Contractors’ State License Law provides for the licensing by written examination and regulation of contractors by the Contractors’ State License Board in the Department of Consumer Affairs. Current law requires the Contractors’ State License Board to periodically review and, if needed, revise the contents of qualifying examinations to ensure that the examination questions are timely and relevant to the business of contracting. This bill, before revision of the landscaping contractor examination, would require the Contractors’ State License Board to confer with specified entities to determine whether any updates or revisions to the examination are needed to reflect new and emerging landscape irrigation efficiency practices, as specified.

Summary:

Current law adopts and authorizes federally adopted and approved projects, including a project for flood control along the American and Sacramento Rivers. The projects are authorized at an estimated cost to the state of the sum that may be appropriated by the Legislature for state participation upon the recommendation and advice of the Department of Water Resources or the Central Valley Flood

Protection Board. This bill would revise the authorization for the project for flood control along the American and Sacramento Rivers as further modified by a specified report adopted by Congress.
