GLOBE THISTLE

Made possible by:
Using less water.

City of
SACRAMENTO
Department of Utilities

An average lawn
requires 50,000
gallons of water per
year. Reimagining
your yard never
looked so good.

Did You Know?
The City of Sacramento has a new Eye on Water website that allows you to get more information about your water consumption.

Eye on Water
Your water meter was recently retrofitted or installed, which means you are now eligible to sign up to access Eye on Water. We encourage you to use this website to monitor your water usage, look for ways to conserve and make informed decisions about water efficiency in your home.

Accessing Eye on Water is easy! Just log onto mywater.cityofsacramento.org to create your account and begin viewing your water usage today.
