

Additional information regarding RWA's Regional Landscape Imagery Project Request for Proposals

Released on June 13, 2019

Please see below RFP related questions and answers submitted to RWA on June 13, 2019.

1. Does the RWA have a final date by which it will have closed out the Q&A period and issued all of its responses? At that point Consultants can finalize their proposals, knowing there will be no last minute responses issued from RWA that may affect their proposal content. This would be especially helpful since the due date is the Monday following a major holiday, and some Consultants will likely feel compelled to finalize and ship their proposals quite a number of days before the due date.

**The deadline for questions is June 20<sup>th</sup> with all answers provided collectively on June 21<sup>st</sup>.**

2. Given that the due date follows a major holiday weekend, would the RWA consider moving the RFP filing deadline?

**RWA will not be moving the RFP deadline.**

3. Per "Inquiries to RFP" on page 10: Could the RWA share this list of Consultants that were sent this RFP?

**RWA sent the RFP directly to Land IQ, Formation Environmental, and Eagle Aerial. The RFP was also publically posted on the RWA website, sent over the RWA list serv, and sent to staff at our member water agencies for further distribution.**
