rebate

IRRIGATION UPGRADES

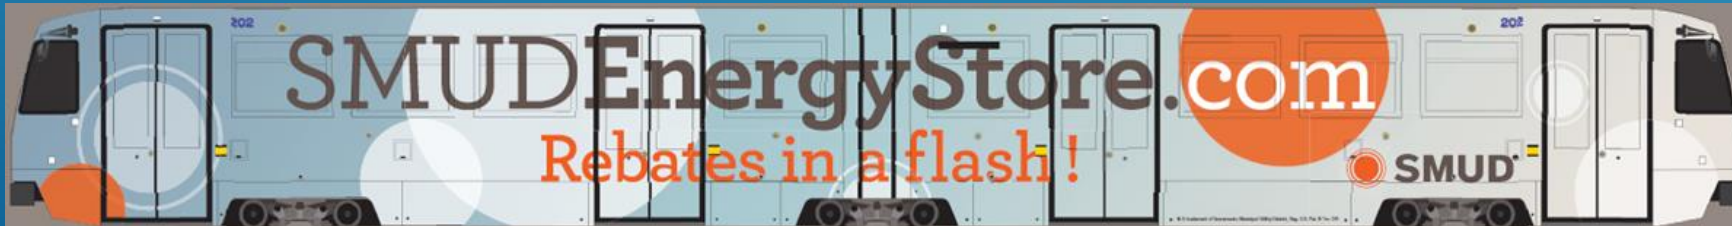

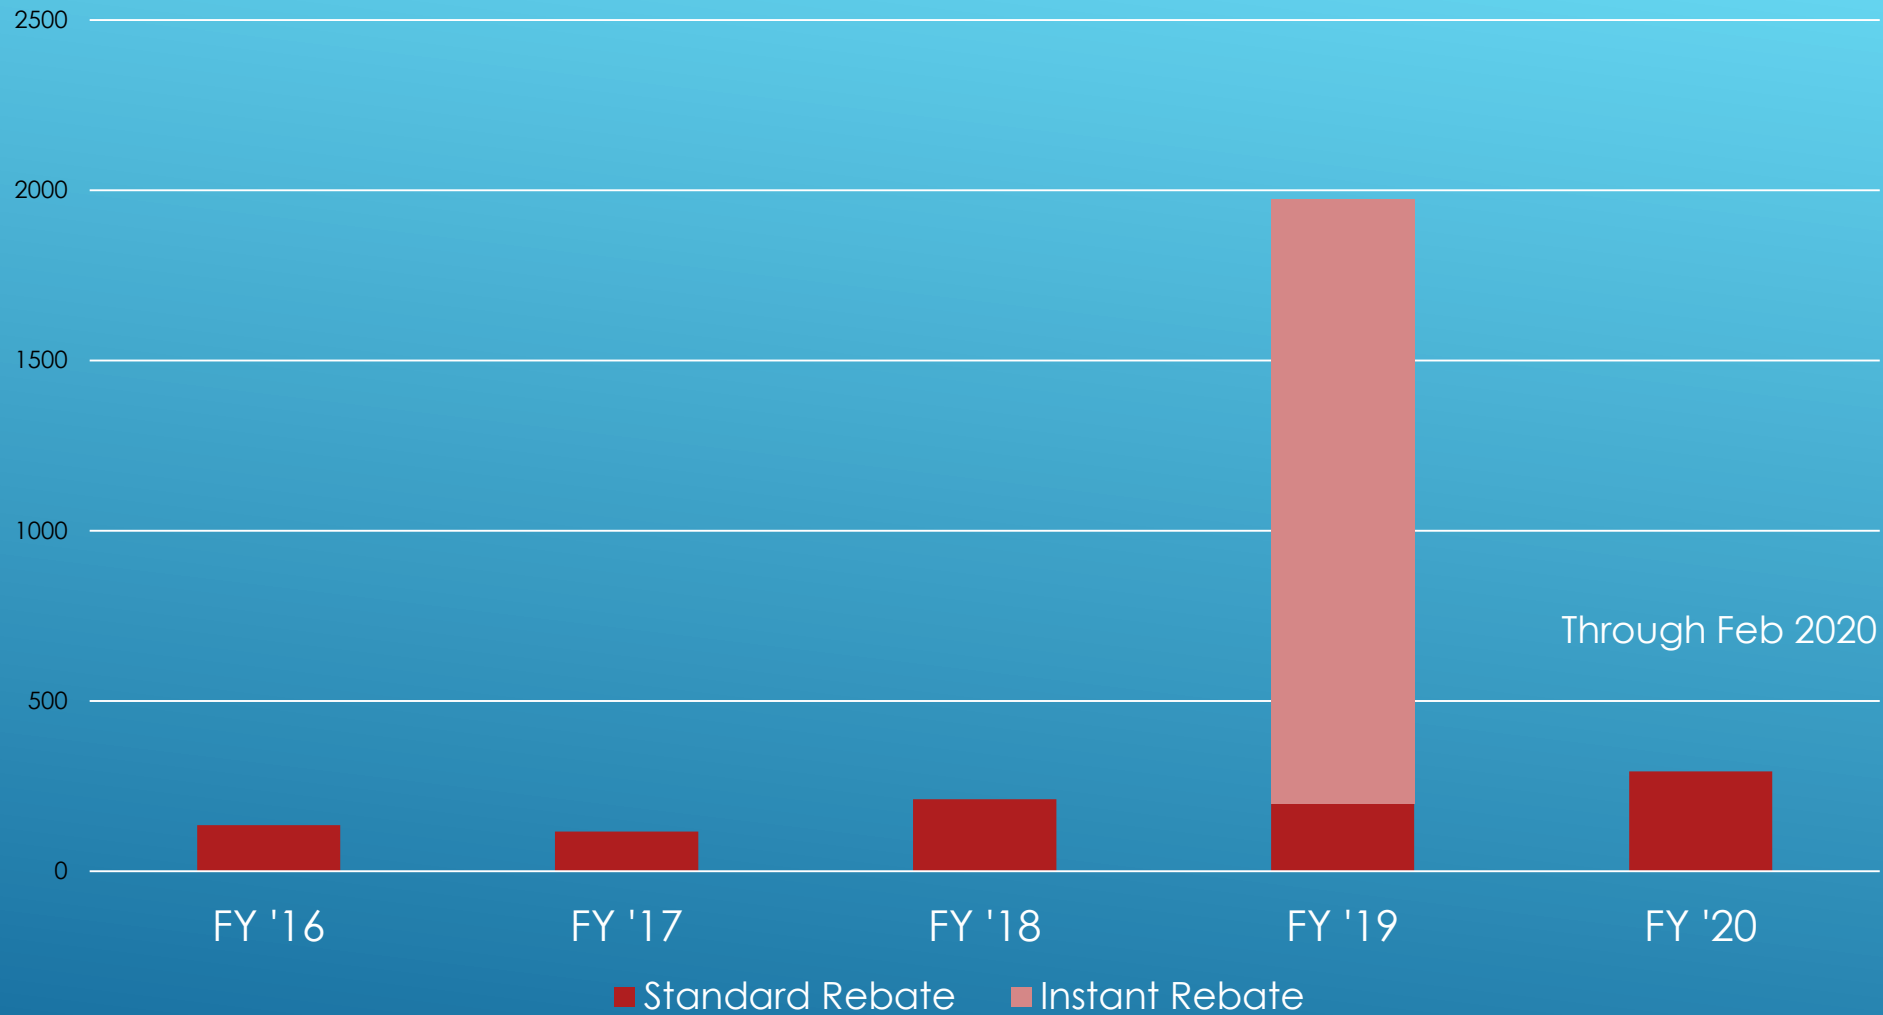

TURFGRASS TRANSFORMATION

OCTOBER 2018: PROGRAM LAUNCH!

\$100,000 MOU initially. = 625 controllers
Quickly amended MOU to \$300,000

SMART CONTROLLER ACTIVITY

Smart Irrigation Controller Rebate Application

Smart irrigation controllers act like a thermostat for your sprinkler system to automatically tailor watering schedules and run times on sprinklers or drip systems. Smart controllers either are sensor based and use real-time measurements using weather information and site conditions such as soil type, plant type, and slope, or are signal based and regularly receive the data from local weather stations via the web. Currently, only [EPA WaterSense](#) certified smart controllers are eligible for the City's rebate and can save an average home nearly 13,500 gallons of water annually.

Applicant Name *

Property Address

ALL REBATES ARE NOW ONLINE, FILLABLE

Up to \$150 if smart controller is programmed and installed by a licensed contractor (C-27) or General.

2020 PILOT: “RE-DO
THE LOO” =

MULTIFAMILY HET
REPLACEMENT
PROGRAM IN THE
DAC
