

DWR Landscape Measurement SB606 & AB1668 Project Update

- We are providing measurement estimates for over 12 million single-family and multi-family residential parcels statewide
- Over 80% of the districts have been mapped and provided to DWR
- Currently going through a formal review process at DWR and independent check to ensure accuracy
- Once complete at DWR, they will begin releasing data to each district
- Data will be provided as a spreadsheet with total district wide allocation and estimates for each parcel

APN	105-100-019-000
Parcel Sq Ft	7,000.00
Irrigated %	56
Irrigated Sq Ft	3,918.10
Irrigable %	13
Irrigable Sq Ft	900.80
Not Irrigable %	31
Not Irrigable Sq Ft	2,181.00

An aerial photograph of a residential neighborhood. The map shows a grid of streets including Walnut Ave, Olive Ave, North St, Shasta St, Magnolia Ave, Orange Ave, Almond Ave, Tehama St, and Oran. A specific parcel, located between Walnut Ave and Olive Ave, and between North St and Shasta St, is highlighted with a green rectangular border. The surrounding area contains numerous other residential lots with houses and trees.
